

- Smooth scroll animations & entrance effects (via **Framer Motion**)
- Responsive, card-based layouts
- Dark mode support (optional toggle)
- Interactive elements (hover effects, tilt cards, form with basic validation)
- Clean Tailwind CSS styling

Recommended Stack (2025 Modern & Interactive)

- **React 18+**
- **Tailwind CSS** v3/v4
- **Framer Motion** → for beautiful animations
- **React Hook Form** + **EmailJS** or simple form (for contact)
- Optional: **Lenis** or smooth scrolling, **Lucide-react** icons

Updated Folder Structure Suggestion

HERO SECTION (Homepage Intro)

Hi, I'm **Hafiz Bekele**

Web Developer • Video Editor • Node.js Developer

I am a web developer and designer based in **Lima, Peru**, specializing in creating modern, responsive, and high-performing websites for businesses. I blend clean design with strong functionality to help brands build a powerful and meaningful online presence.

[\[Download CV\]](#) [\[View Projects\]](#)

ABOUT ME

I am a web developer and designer specializing in creating modern, functional, and visually appealing websites. I combine creativity with technical expertise to transform ideas into intuitive and user-friendly interfaces while maintaining high-quality, well-structured code.

My work focuses on balancing aesthetics, usability, and performance to deliver engaging digital experiences that truly serve users and businesses.

SKILLS (Card Style Layout)

You can display these as cards on your website:

Frontend

- HTML
- CSS
- JavaScript
- React

Backend

- Node.js
- Express.js
- MongoDB

Tools & Design

- Git & GitHub
- Figma

PROJECTS

You can show these as project cards with images later:

1. **E-commerce Website**
2. **Food Delivery App**
3. **Coffee Shop Website**
4. **School Management System**
5. **Online Book Store**

(Later you can add screenshots, live links, or GitHub links for each project.)

CONTACT ME (Final Section)

Let's work together! Feel free to reach out for collaborations, freelance projects, or inquiries.
